

Velvet Spin Bonus - \$100 No Deposit at Alien Wins

I wasn't expecting much when I grabbed the \$100 no deposit bonus at Velvet Spin Casino, but I was curious to see how far I could stretch it. The 40x wagering sounded tough, but not impossible.

Alien Wins was the only slot tied to this bonus, so I didn't have much choice. I switched between \$1 and \$2 bets, trying to keep some rhythm going. Nothing huge ever hit, but the smaller wins showed up just often enough to keep things moving without wiping me out.

Eventually, I finished the wagering and saw my balance sitting at \$183. I stopped and stared at it for a second. Not bad for a free run. Of course, the \$100 cashout limit brought me back down a bit, and I did have to complete KYC before withdrawing, but it went through without any issues. Turning zero into something felt pretty satisfying.

Pros & Cons

Pros:

- Frequent wins helped me stay in the game without burning through the balance
- The \$1 to \$2 bet range gave me just enough control to pace the session well

Cons:

- No bonus features or big win moments during the session
